Education

Indian Institute of Information Technology, Surat
Bachelor of Technology in Computer Science and Engineering

Nov 2022 - Aug 2026
CGPA - 09.54

Lord Buddha Public School, Kota
Higher Secondary - PCM

Jul 2019 - Jul 2021
12th - 92.6%

Experience

Across The Globe

Oct 2024 - May 2025

Chrome Extension & Node.js Developer Intern

Remote

- **Website Analyzer Extension:** Enabled long screenshot capture, automated header/footer navigation, and structured data export as downloadable JSON.
- **Instagram Analyzer Extension:** Built feature to extract post images, captions, likes, and comments via automated DOM interaction.
- **SahajMoney BE:** Developed RESTful APIs and integrated AdminJS with MongoDB for content management.
 - Refactored MongoDB models for dynamic data handling and improved Zoho scheduling integration.
 - Built web scraper for blog cover images and implemented AWS Lambda alert system for backend failures.
- **PLNR BE:** Led backend development during M1 Phase, handling end-to-end responsibilities including MongoDB schema design, RESTful API development in Node.js, and deployment on AWS EC2 with PM2 and NGINX.

Selected Projects

Spot It | MERN, Socket.io

Github | Project Link

- Developed a web app for on-campus lost and found item management with a clean, user-friendly interface.
- Implemented secured user authentication and integrated email-based verification and password recovery systems.
- Designed RESTful APIs for posts, comments, and real-time chat with edit, delete, and reply features using Socket.IO.

Analys | Streamlit, Pandas, Matplotlib

Github | Project Link

- Developed a WhatsApp chat analysis tool to uncover user behavior, group dynamics, and communication patterns.
- Preprocessed data in Google Colab and extracted key metrics like message count, media shares, and peak hours.
- Built interactive Streamlit dashboards with visualizations like word clouds, heatmaps, and activity timelines.

Technical Skills

Programming Languages: Python, Javascript, C, C++

Databases: MySQL, MongoDB

Web Technologies: HTML, CSS, Tailwind CSS, ReactJs, NodeJs, NextJs

Other: Github, Linux, Chrome APIs, API Development & Integration, ML & DL (fundamentals)

Soft Skills: Solution oriented, Team collaboration, Adaptability, Clear articulation

Position of Responsibility

Senior Developer | TNP Website Team IIIT Surat

Jan 2025 - Present

- Co-led key technical decisions on tech stack, deployment, and infrastructure with fellow senior developers.
- Collaborated with junior developers to implement features and uphold code quality standards.
- Developed core modules in Next.js and Firebase, including role-based access control and dynamic data rendering.

Achievements

- Achieved **2157 Max Rating** @LeetCode with 600+ DSA and Database Problems solved.
- Achieved 3 Star Rating @GFG with a **1100+ coding score** and 300+ DSA Problems solved.
- Ranked in **Top 10** out of 50 teams in GDSC IIIT Surat's DevHeat Beta hackathon for building [HackedIn](#).
- Selected as 1 of 5,000 nationwide for the **Reliance Foundation Undergraduate Scholarships**.
